ALL BREEDS ADULT

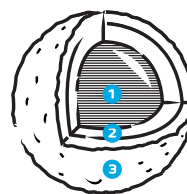

COMPLETE FOOD
FOR ALL BREEDS
OF ADULT DOG

FISH

PETTYS ALL BREEDS ADULT FISH is a complete and balanced food suitable for **adult dogs of every size**. Formulated with **fish** making it ideal for dog owners who want to avoid other sources of animal protein. Pettys kibble is made with our exclusive “Triple-layer” process which utilises different cooking times for the different raw materials to obtain more easily digestible starches.

Moreover, animal proteins, minerals and vitamins are cold blended to **preserve all their nutritional and organoleptic qualities**, without submitting ingredients to an additional heat treatment.

It contains **FOS and MOS** that promote gastrointestinal well-being and support a strong immune system, helping to develop the natural immune defenses, **chondroitin, glucosamine and MSM** (methyl-sulfonyl-methane) for the development of joints and bones, and **spirulina** to help maintain the vitality and the general well-being of the dog. It also contains **yucca schidigera** which helps to reduce waste-odour.
