MEDIUM ADULT

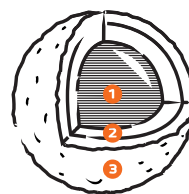

COMPLETE FOOD FOR MEDIUM-SIZED BREEDS OF ADULT DOGS CHICKEN

PETTYS MEDIUM ADULT CHICKEN is a complete and balanced food suitable for **medium-sized breeds of adult dog**, formulated with chicken as the selected source of animal protein. Pettys kibble is made with our exclusive “Triple-layer” process which utilises different cooking times for the different raw materials to obtain more easily digestible starches.

Moreover, animal proteins, minerals and vitamins are cold blended to **preserve all their nutritional and organoleptic qualities**, without submitting ingredients to an additional heat treatment.

It contains **FOS and MOS** that promote gastrointestinal well-being and support a strong immune system, helping to develop the natural immune defenses, **chondroitin, glucosamine and MSM** (methyl-sulfonyl-methane) for the development of joints and bones, and **spirulina** to help maintain the vitality and the general well-being of the dog.

It also contains **yucca schidigera** which helps to reduce waste-odour.
